

What We Do

Certo-Tech is a division of Advance Millwrights Inc. which designs, fabricates, programs, and installs complete automated systems. Our systems are custom created for each customer within various operations, including but not limited to, pallet dispensers, slip sheet dispensers, bag, case or box palletizing as well as full pallet transfer conveyors.

About Us

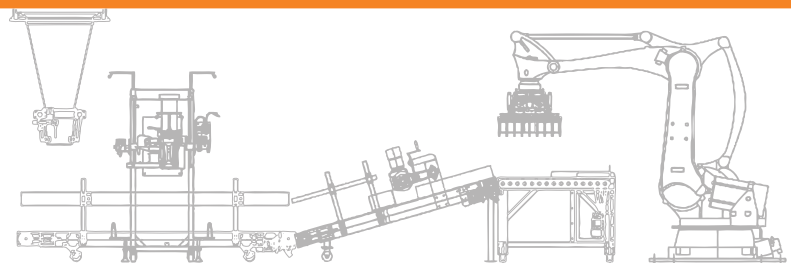

Certo-Tech is built around industry experience. Our combined experience spans 50 years in design, manufacturing, programming, and installation. Our primary goal is to provide our customers with quality equipment that meets or exceeds their individual expectations. We offer solutions from individual pieces of equipment or total turn-key projects.

Industries We Serve

- Feed
- Seed
- Flour
- Fertilizer
- Food
- Industrial

The Certo-Tech Difference

Each Certo-Tech's project is manufactured at our facility in Elmira, Ontario, and our equipment is built with quality in mind. Our innovative designs allow for easy maintenance and high performance. We only use top quality materials/parts in our builds to guarantee our equipment will continue working every day. Finally, our qualified installers are available 24/7 for all your installation needs.
